The screenshot displays the MySQL Workbench interface. The top menu bar includes File, Edit, View, Query, Database, Server, Tools, Scripting, and Help. The left sidebar shows the 'SCHEMAS' tree with 'info' expanded, containing 'Tables', 'Views', 'Stored Procedures', and 'Functions'. The 'a_table' is selected under 'Tables'. The main editor shows a SQL query: `SELECT * FROM info.a_table;`. Below the query editor is a toolbar with options like 'Result Grid', 'Form Editor', and 'Wrap Cell Content'. The 'Result Grid' is active, showing a table with columns 'EmpId', 'EmpName', and 'City'. The table contains one row with values '1', 'John', and 'New York'. The bottom status bar shows 'a_table 4' and 'Apply', 'Revert' buttons. The bottom right pane shows 'Output' with a table of execution results.

#	Time	Action	Message	Duration / Fetch
